

MULTIPLEXI 85 ANGLE EXTRUSION

Set of extrusions and connectors for building lightboxes with rigid face (acrylic, plexiglass).

Thanks to the proper shape of the main profile, the angle protecting the edges of the face does not protrude beyond the contour of the side walls.

system components

- A** MULTIPLEXI 85 extrusion
- B** MULTIPLEXI angle extrusion
- C** inner aluminium connector
- D** angle mounting screws
- E** acrylic face
- F** PVC or dibond backface

extrusion weight

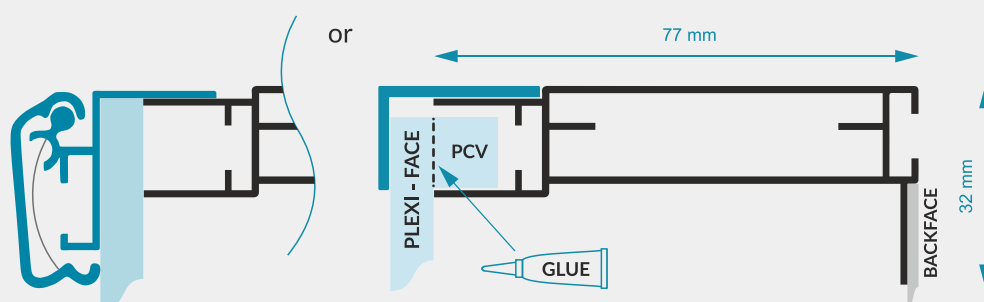

0,427 kg/m

available finishes

raw aluminum

recommended lighting

SEMAFOR
SUBLENS
X-BAR

The angle extrusion marked at the drawing creates an aesthetic, uniform surface with the side of the lightbox.
