

## TEXTIL 85-JDS EXTRUSIONS

Standard extrusions for creating lightboxes with tension fabric face. It doesn't require drilling, riveting, etc.

The stiffness of the structure is provided by the internal connector, which additionally prevents „escape of light" through the corner edge the frame.

### system components

- A** TEXTIL 85-JDS extrusion
- B** 60/20 connector
- C** L58 inner alu. connector
- D** M8x6 screws
- E** printed fabric face

### extrusion weight

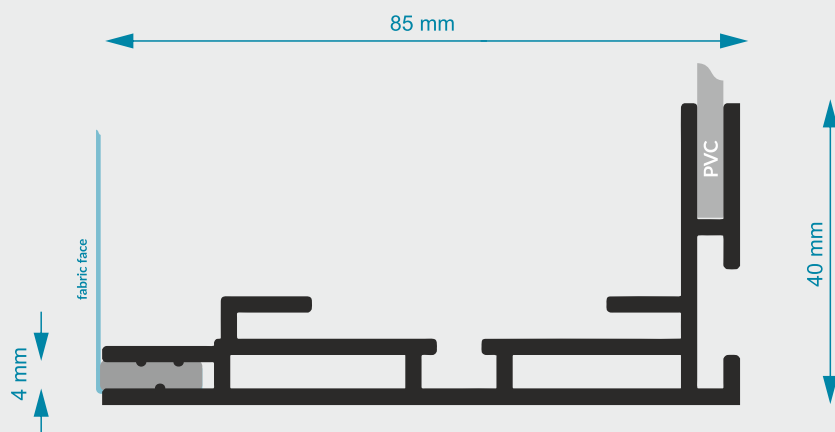

1,219 kg/m

### available finishes

- anodised aluminum
- raw aluminum

### recommended lighting

- PANORAMA
- PANORAMA MINI
- SEMAFOR
